

Fermi Redmine - Bug #5688

commit messages

03/18/2014 02:23 PM - Lynn Garren

Status:	New	Start date:	03/18/2014
Priority:	Urgent	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
<p>The message service used by git commit sometimes sends a message about every commit since the beginning of time when you push a new branch. Yesterday, this spammed every member of the larsoftcommit mailing list with thousands of messages. This needs to be fixed ASAP. Please see LArSoft bug 5678: https://cdcvns.fnal.gov/redmine/issues/5678</p> <p>Perhaps it is possible to simply limit the number of messages to some small and manageable number?</p>
